What are Pensions?

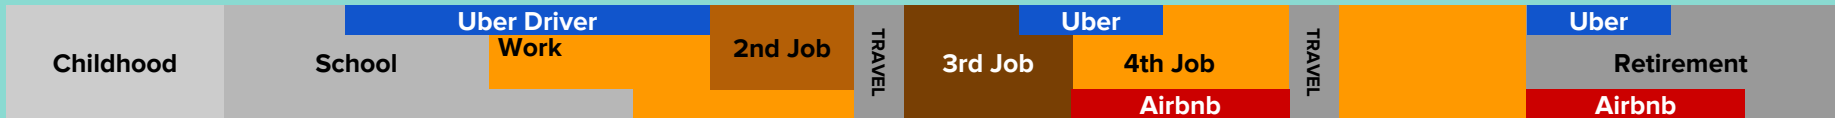

**But,
work is changing.**

Work is Changing

Traditional Work

New Work

- Multiple Jobs (at the same time)
- Automation quickly status quo
- More freelance/solo-jobs
- Living Longer
- Continues Education throughout life to adapt to new skills

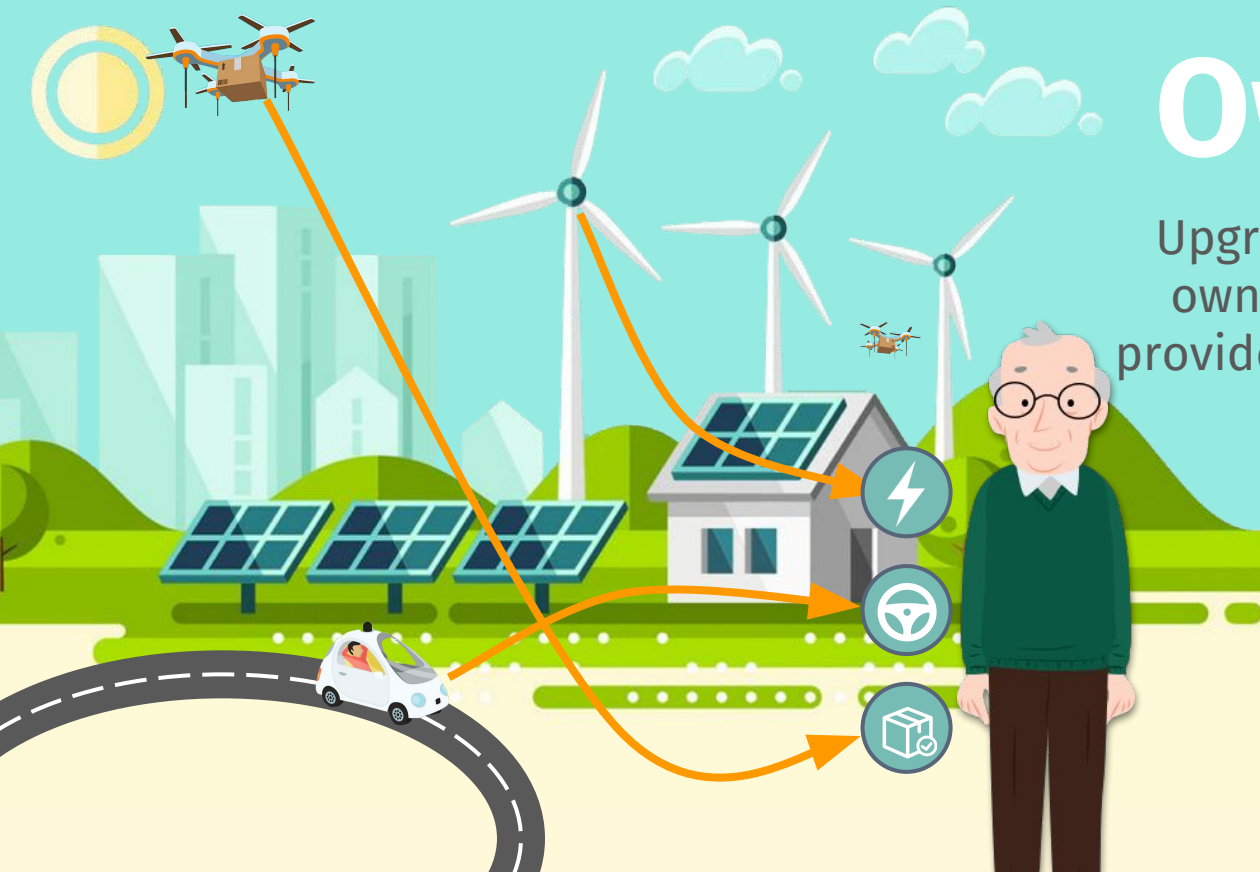

Future-Proofing Pensions

Ownership

Upgrade your city and directly own the infrastructure which provides for your everyday needs.

NestEgg.eu

How?

Build the 3rd Industrial Revolution

The sun doesn't charge an energy bill.

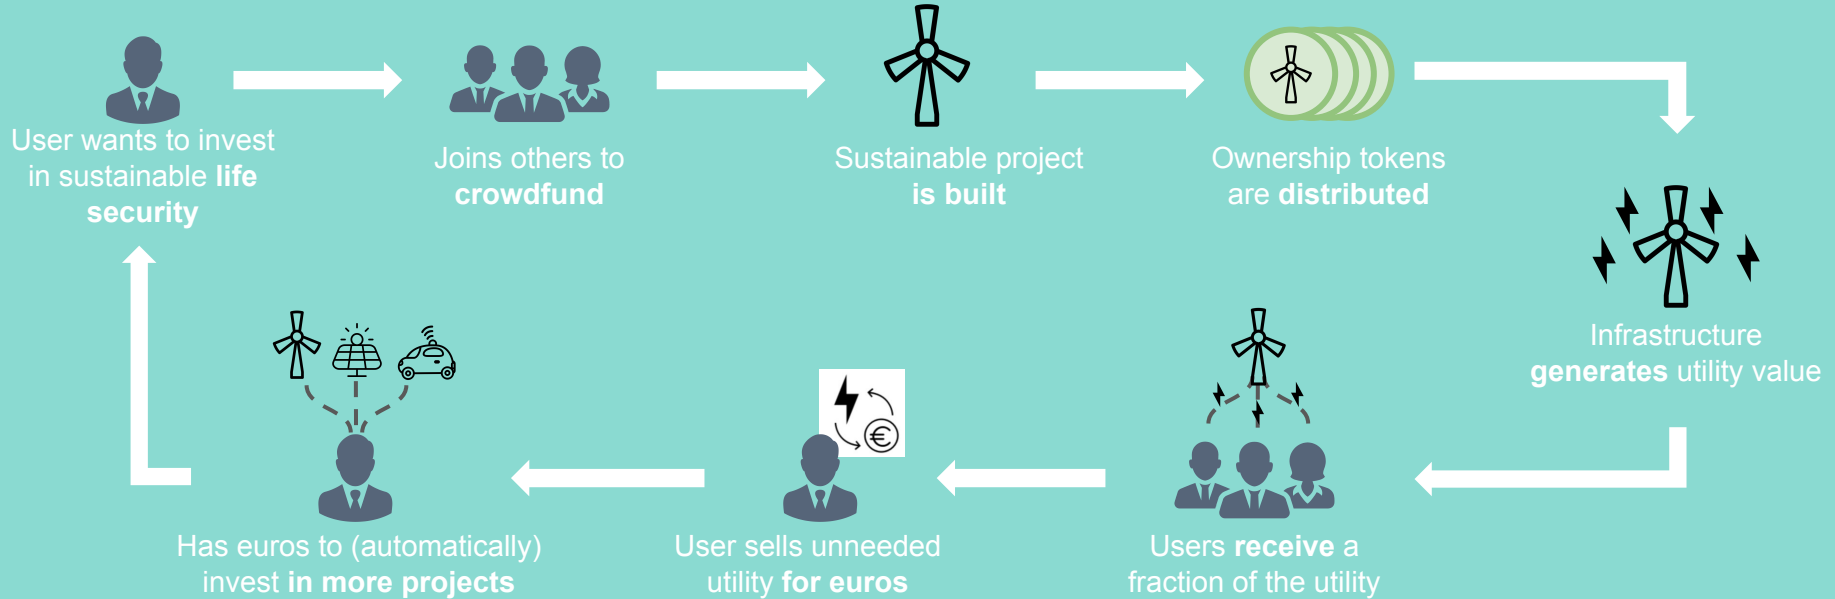

Let's build carbon-free infrastructure that takes advantage of this new economic paradigm.

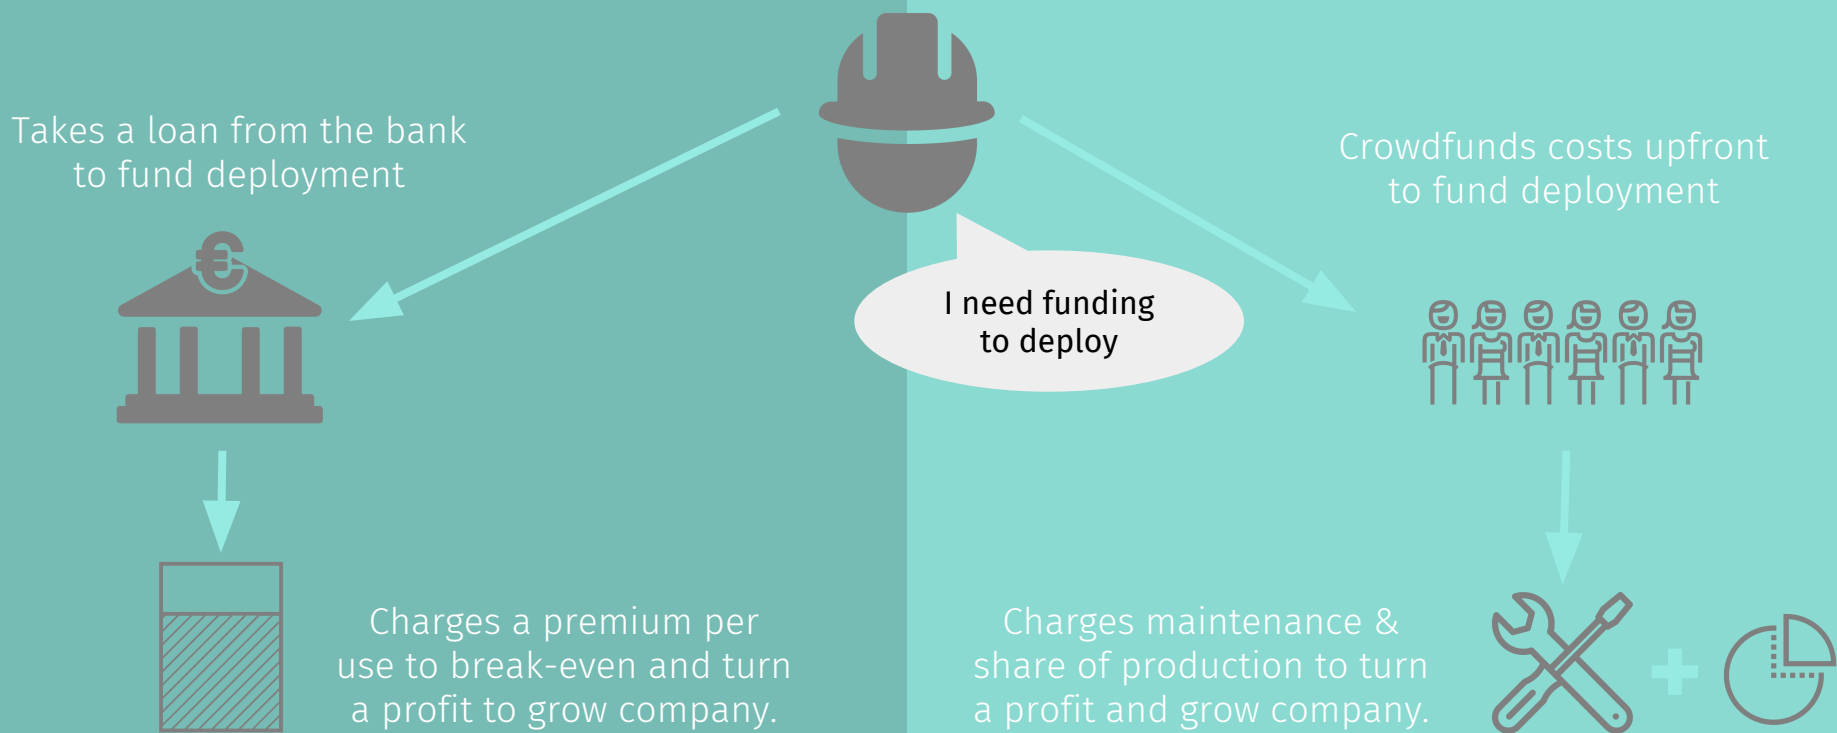

Wants to **deploy**
infrastructure

NestEgg's Value Flow

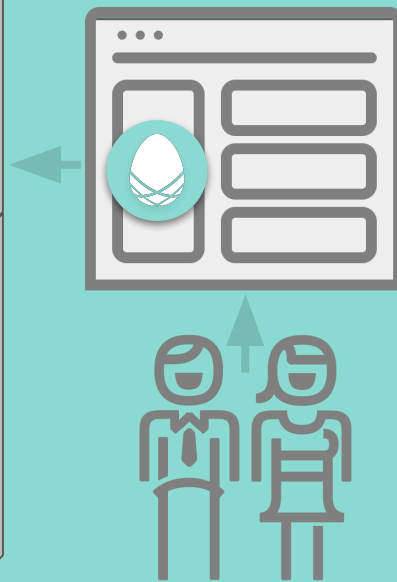

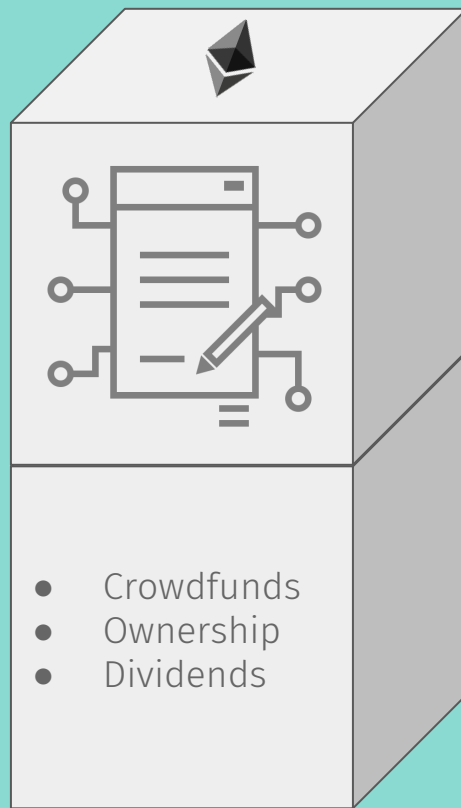

We offer an alternative deal to Infrastructure Providers

We use the Blockchain, here's how

The **Blockchain** is our single source of truth.

This keeps an immutable and transparent history of administration.

Users manage assets through a **dashboard**.

This simplifies user experience without needing to know how to blockchain.

We use the Blockchain, here's why

Administration is autonomous and scales without increasing overhead

Administration is transparent, building trust in the arrangement

Upfront-Compliance at protocol level, stopping fraud or misuse

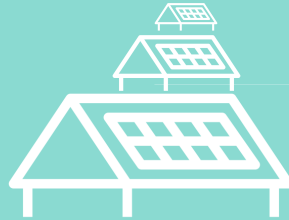

Users control their own data. Can opt to control their own assets

Deployment Strategy

To create a global network, we focus on developing local installations that can be repeated anywhere in the world.

Build a **jurisdiction agnostic** platform

Create **repeatable** installations

Encourage other cities to **copy & paste** locally
